

Type A

## LOW PRESSURE GAUGE

This gauge measures the low pressure which can not be measured by a Bourdon tube system gauge. For example, liquid level of an engine's suction pressure tank can be measured.

- **Size** : 60 $\phi$  / 75 $\phi$  / 100 $\phi$
- **Pressure range** : 0mmH<sub>2</sub>O ~  $\pm$  5000mmH<sub>2</sub>O (mmAq)
- **Shape of casing** : Standard case, closed case Type A/Type B/Type D
- **Connecting thread** : G 1/4 · 3/8
- **Accuracy** : Within 1/2 scale of the minimum scale
- **Others** : Over-pressure prevention type is provided.
