Roof Piping System FLOATING SUCTION

KSPC FLOATING SUCTION is the most economical type of floating suction package in the market. **KSPC** is a total solution provider of suction system that manufactures Pipe & Tubing, Joints and Float.

KSPC roof draing system is designed, manufactured and tested according to maker standards and adjusts to the irregularities of tanks while remaining gas tight and viturally maintenance free.

BASIC INFORMATION		
TYPE	Swivel Joint Type	
DESCRIPTION	Floating Suction System	
STANDARD	Maker Standards	
EXECUTE: SET TO		
COST SAVING	Economic design to save cost	
USER FRIENDLY	No O-ring, Bearing or Seal	
RESISTANCE	Designed for submerged serevice	
LIFE CYCLE	Long service life expectancy	
INSTALLATION	Designed with easy installation and maintenance	

KEY COMPONENT MATERIAL		
NO	PARTS	MATERIALS
1	FLOAT	STAINLESS STEEL
2	PIPE	CARBON STEEL or STAINLESS STEEL
3	SWIVEL JOINT	CARBON STEEL or STAINLESS STEEL
